Nauticalia

Since 1974

Welcome Aboard!

I hope you and your loved ones are safe and well, and that your business has been able to weather the storm of the last 12 months. It has been a challenging year for all of us and, although there is still some uncertainty in the short term, we are looking forward to gradually returning to normal as the year progresses.

We have traded through many ups and downs since we began in 1974 by listening to our customers and developing and sourcing unique products; and in this way we're setting out to make a success of 2021. We never stop searching for and developing products that we think your customers will love, and we're delighted to present almost 100 lines new for 2021. Please keep this supplement with your 2020 catalogues, which remain valid this year; together they offer more than 2,500 nautical gifts, furnishings, clothing, and chandlery lines.

To order, please call our sales team on +44 (0)1932 244396 or order online at www.nauticalia-trade-sales.com.

The Meridian Collection

Sitting upon the Meridian line, at 0 degrees Longitude, Greenwich is world renowned as the place 'where time begins' and was once the centre of Britain's naval and trading power. It is from here that our collection of clocks and desk accessories take their inspiration.

EXCLUSIVE DESIGN

Greenwich Pocket Watch

Pocket watches were once the only option, but to wear one today lends the gentleman owner a most distinctive air. This one, with its aged-effect dial and solid brass case, looks like a 19th century antique, but - unlike the originals - won't break the bank. Also unlike the originals, it has a reliable quartz movement, so you can't use it as an excuse to be late! Case diameter 5cm. Supplied with chain in a velvet bag. LR44 battery supplied.

2944 Greenwich Meridian Pocket Watch, 5cm

'Where Time Begins' Pivot Clock

This charming little desktop clock, cast in brass with an antique finish and faux leather binding around the edge, celebrates Greenwich's position at 0° longitude - 'where time begins'. The stand is adjustable in angle to suit your view. Quartz movement uses 1xAA battery. Stands 10cm tall.

2108 Greenwich Where Time Begins Pivot clock

Greenwich Pocket Watch Clock

Victorian in style, but powered by a reliable modern quartz movement, it stands 14cm tall on an aged brass stand with a compass rose design base. LR44 battery supplied.

2949 Greenwich Pocket Watch clock

'Where Time Begins' Boxed Compass

Cast and machined from solid brass with a screw-top case, this functional compass has the *Where Time Begins* emblem photo-etched into the lid. Diameter 6cm.

3802 Greenwich Where Time Begins compass

'Where Time Begins' Business Card Case

Ensure your business cards remain clean and crisp in this slim brass case with *Where Time Begins* emblem etched on the front.

7323 Greenwich Where Time Begins card holder

'Where Time Begins' Navigator's Magnifier

A traditional brass chart weight with a swing-out magnifying glass. 2 x magnification. Diameter 7cm.

2115 Where Time Begins magnifier

Longitude Desk Clock

Made from brass and wood with a brass plaque showing Greenwich's location at 0 degrees longitude. Stands 15cm tall and quartz movement uses 1x AA battery (not supplied).

Tower Magnifier

The Tower Magnifier stands 25cm tall and consists of three magnifying lenses (each approx 1.5x) which you can swing in and out of use independently. Experiment with different combinations of lens numbers and spacing to vary the magnifying power and focal point to suit your subject. It's an intriguing instrument, reminiscent of very early microscopes.

5229 Tower Magnifier

Antique Marine Clock

If you have a traditional décor or classic boat, it may not suit a highly-polished brass or chrome instrument on the wall. This clock will blend in with its authentic antique look, aged brass case, parchment-style dial, and Roman numerals. The quartz movement however, offers modern timekeeping and reliability, and uses 1x AA battery. Diameter 12cm

6743 Antique Marine clock

Boxed Chronometer

This smart desk clock, with a crisp white face, contrasting black hands, and Arabic numerals, is set in a glass-topped hardwood case measuring 16x16x10cm. Quartz movement uses 1x AA battery.

6742 Boxed Chronometer

Aluminium Porthole Clock

Similar in design to our famous brass porthole clocks, the case is cast from solid recycled aluminium and polished to a mirror-like finish. The face is white with black roman numerals, black hands, and a red second hand. Quartz movement uses 1x AA battery. Diameter 28cm.

5228 Aluminium Porthole clock

EXCLUSIVE DESIGN

The Original Paratrooper's 'Cricket'

The ACME No. 470 Clicker, or 'Cricket' as it became known, was conceived in the 1920s as a time-keeping device for musicians, but was adopted in 1944 by US paratroopers who needed a way of discreetly identifying friendly forces after landing behind enemy lines at night. 7,000 were supplied ahead of the D-Day invasion, very few of which now survive and are expensive antiques. Our authentic replica is made in the UK by the same company, on the actual tooling and machines used in 1944. It is superb quality and almost indistinguishable from the originals. Nowadays, they also serve as a useful dog training aid. Supplied wartime-style cardboard box with certificate of authenticity.

Our Best-loved Aircraft Sculpted in Aluminium

From 'vintage' to state-of-the-art, many aircraft have become part of our national heritage – their triumphs, revolutionary engineering achievements, and even beauty earning them a place in our hearts. These impressive sculptures of some of the most iconic have been cast in solid aluminium and polished to a high sheen such that their subtle curves and angles catch the light. They're substantial pieces; each will require a suitable display space, but will look simply spectacular in the right location.

Concorde

The dream of a future where people would travel the world at twice the speed of sound became a reality when Concorde made her first test flight on 2 March 1969, and 'went supersonic' on 1 October the same year. She then entered service with British Airways and Air France in 1976 and took her final commercial flight on 24 October 2003, having completed more than 50,000 flights.

Supermarine Spitfire

Developed in 1938 from a Schneider trophy-winning design by the aeronautical engineer and designer R.J Mitchell, the Supermarine Spitfire became the hero of the Battle of Britain in the summer of 1940. Spitfires remained in service until 1961 – well into the jet age – by which time more than 20,000 had been produced. Wingspan 80cm.

3521 Aluminium Spitfire Sculpture, 80cm wingspan

Avro Vulcan

The enormous delta-winged Avro Vulcan was designed as the mainstay of the V-bomber fleet - our Cold War nuclear deterrent. However, its finest hour was arguably the audacious long-range 'Black Buck' raids of the Falklands conflict. The Vulcan served from 1956 until October 2015, when the last example (XH558) was withdrawn from service and restored to become a much-loved highlight of air shows and displays. Instantly recognisable, seeing (and hearing!) one in flight was an experience not to be forgotten. Sadly, even XH558 no longer flies - the task of keeping her in an airworthy condition proving insurmountable. Measures 60cm long with a wingspan of 76cm.

Mayflower
~ 400 ~

Mayflower Premium Ship in Bottle

In the autumn of 1620, a group of English and Dutch puritans, believing that the Church had strayed too far from Christ's teachings, set out to establish a colony in the New World where they could practice their religion free from persecution. With 102 pilgrims and around 30 crew on board, Mayflower departed Plymouth for what is now New England on a voyage that would last two months in treacherous conditions. This journey has become an iconic chapter in American history, and our models pay tribute to the ship which remains a popular historic symbol today. To celebrate the 400th anniversary of her voyage, we have produced these premium quality ships in bottles. Handmade in the traditional manner, they feature wooden hulls, cotton sails and rigging, and a rope-bound stopper. Measures 14cm long.

Knotboards

EXCLUSIVE DESIGN

In the days of sail, sailors had to be experts in ropework, for the safety of the entire ship could depend on whether a knot was correctly tied. On long voyages, the tying of knots became a craft in itself, and knotboards such as these served as displays of skill as well as useful training references. These each feature a half-hull model and eight decorative knots in a glazed wooden frame.

3871 Breton crew sweater 100% wool, ecru

Striped Submariner Sweater

This contemporary take on the classic roll-neck Submariner sweater has bold navy/ecru stripes. Just like the original, it's made from 100% Merino wool so it's soft, comfortable, and very warm. Can be machine washed on a cold cycle, but preferable to hand wash gently and dry naturally. Sizes (to fit chest): S(40"/101cm), M(42"/107cm), L(44"/112cm), XL(46"/117cm), XXL(48"/120cm).

99171 Striped Submariner sweater

Cotton Submariner Sweater

A contemporary twist to the classic woollen roll-neck sweaters issued to the Navy in both world wars. These chunky knitted sweaters are made from 100% certified organic cotton - perfect for milder days, or for layering up on a windy day - and are made to last. Machine washable. Sizes (to fit chest): S(40"/101cm), M(42"/107cm), L(44"/112cm), XL(46"/117cm), XXL(48"/120cm).

New! Cobb Outdoor Cooking System

Cobb Premier Air

The Cobb Premier AIR offers a host of improvements and upgrades aimed at making cooking easier and your food taste even better. Just like the original Cobb, it's incredibly fuel efficient, versatile, and remains cool to the touch on the outside, so you can safely use it on board, in the garden, or on a picnic. On top of that, improved airflow makes it easier to control cooking temperature, thicker gauge steel enhances durability so it will last longer, removable ash pan makes it easier to clean, and it's all backwards-compatible to allow continued use of Cobb accessories and fuel.

Cobb Premier AIR

Comes with a carrying/storage bag. Measures 13" tall, 12" diameter. Also available is the Cobb frying pan & wok set, which is specially designed for use with the Cobb, tough stainless steel construction. Cobblestones fuel available for Cobb.

3034 Cobb Premier AIR cooker & bag

Cook with coals or Cobblestones

Cobb Features:

- Stays **Cool-to-the-touch** on the outside. So it can be used on a wooden table, fibreglass deck, or your lawn without causing damage.
- **Doesn't smoke** - food is isolated from the charcoal, so fat does not drip onto it and flare.
- Can be used as a **Charcoal oven** - delicious pizza cooked in just 15 minutes!
- Only needs six briquettes to **Cook for up to 3½ hours** or one Cobblestone (see below) burns for 2½hrs - maximum heat from minimum fuel.
- Is **Easy to clean & long-lasting** - all dishwasher safe.

See more from Cobb on page 41 of our 2019 Marine Trade Catalogue.

Open When fully opened the charcoal can draw more air allowing internal temperature to rise

Closed When closed the air flow is reduced allowing the charcoal to burn slower and reduce the temperature

Cobb Cobblestones

Cobblestones are specially shaped to fill the fuel compartment of your Cobb barbecues, and formulated to burn hotter and longer than charcoal of the same size/weight. They are environment-friendly too, being made from coconut shells. Each stone burns for up to 2hrs (smoke-free after the first three minutes), with very little residue. They are individually plastic-wrapped, so won't absorb moisture if you keep them in a soggy locker and nor will they turn everything black.

99093 Cobblestones, Pack of 6

Fits the fuel compartment perfectly

Limit Watches

Limit were established in 1912, and now we are distributors for their range of superb value watches. Offering a variety of styles, the collection features analogue and digital movements, with classic, modern, and sports designs. Nicely packaged, with keen price-points, we have found them to be great impulse purchases and gift ideas that sell particularly well when placed near the till point.

Limit Small Case Sports Watch

Code Flag Bunting

Traditionally, code flags or international signal flags are used by ships at sea individually to spell out short messages or in combinations with special meanings. Our code flag bunting includes 40 code flags (letters of the alphabet, numbers 0-9, and three signal flags). Made from colourful, lightweight polyester, it is intended for decorative use around your home, office, garden or boat! 15 metres.
